

The "X" List Report

Strongest Banks and Thrifts in the United States

(See second table below covers the weakest; go to the bottom of this report for information on brokers.)

Distributed by: Weiss Research, Inc. and www.MoneyandMarkets.com.

Source of Financial Strength Ratings: Courtesy of TheStreet.com Ratings, www.TheStreet.com.

Data source: FDIC's Call Reports and OTS' Thrift Financial Reports, March 31, 2008.

Selection criteria for the table below: All U.S. commercial banks, savings banks, S&Ls and other thrifts with total assets of \$500 million or more and with a rating of B+ or higher.

Instructions: Below, please find the listings for the strongest and weakest banks and thrifts.

1. Make sure you have the exact name of your bank or thrift, along with its state of domicile
2. Look for your institution in alphabetical order. If it is not on this list, check the list of Weakest Banks and Thrifts below.
3. If you cannot find your institution on either list, visit www.TheStreet.com.
4. Under "PORTFOLIO & TOOLS," select "Banks & Thrifts Screener."
5. This will take you to a new page with the bank screener, and you'll see a box on the left hand side to fill in your bank information. To narrow the search, type in the name of your State. For the bank name, enter just the FIRST word or a SINGLE key word. Do not enter the full bank name.
6. Refer to the following ratings scale:
 - A** excellent
 - B** good
 - C** fair
 - D** weak
 - E** very weak
 - +** the upper third of each grade range
 - the lower third of each grade range

7. Based on these ratings, here are some guidelines to follow:

- ✓ If your bank is rated B- or higher, do not take any further action unless your deposits are over the FDIC limit.
- ✓ If your bank is rated D+ or lower, consider moving your money elsewhere.
- ✓ If your bank is rated a C- a C or a C+, we consider it a yellow flag. Monitor the rating periodically to make sure it has not been downgraded to into the D range.
- ✓ If you're shopping for a new bank or thrift, favor those with a rating of B+ or better.

Select U.S. Brokers with Their Capital Multiples

Publisher: Weiss Research, Inc.

Data source: Securities and Exchange Commission (SEC) and most recent financial statements.

Selection criteria for the table below: Based on reader interest and other issues we deemed relevant to investors.

Definition of Capital Multiple: Total net capital divided by minimum capital requirement.

Instructions:

1. Do not rely exclusively on this measure to evaluate the relative safety of your broker.
2. When you have a choice, favor brokers with a higher capital multiple as an indicator of their ability to withstand losses or other financial difficulties.

Brokerage Firm	Capital Multiple
Edward Jones	19.90
Bank of New York Mellon (Pershing)	15.80
